**Subject:** Summary - December 7

Hi Richard,

The afternoon part of the hearing went well I thought. He got a few questions on PFAS that I think we will have to tackle in the QFRs.

Susan Bodine also got confirmed yesterday.

You received two items for review:

1. From Kevin at 5pm

Final sign off needed on the Cassidy letter for the RFC on chloroprene. You reviewed and approved the draft so this is just a final check.

Please let me know.

2. From Lou D'mico mid afternoon

They want approval for a stream conductivity website launch.

Do you need a briefing or are you familiar and can approve?

Have a good evening! Hope the flight went well.

Kevin
